AIRFREIGHT SERVICES

LV Shipping & Transport is your airfreight partner offering increased capacity across more routes worldwide, striking the right balance between budgets and first class service, and providing a single, dedicated point of contact that will save you time.

We operate in accordance with the requirements of our IATA accreditation and provide a complete, integrated import and export airfreight service with our global network of offices and well established agents. With our warehousing facilities and logistics capabilities, we offer seamless door to door airfreight transportation solutions for consignments ranging from small packages, personal effects, dangerous goods to out of gauge cargo.

We operate our own consolidation services to and from many worldwide locations, as well direct scheduled flights worldwide on all major airlines.

For oversized, heavy, volumetric or urgent shipments, we provide a full air charter service for aircrafts of all sizes, ranging from small jets to the largest cargo planes such as the Antonov AN-124. Chartering cargo aircrafts also allows us to deliver cargo to remote and isolated destinations around the world, giving viable alternatives to long and costly overland journeys.

In some LV locations, we operate a helifreight logistics service, providing daily helifreight transportation of spares, consumables and victuals to offshore oil & gas platforms.

Our experienced teams of highly qualified aviation experts throughout our worldwide offices can plan and design your bespoke airfreight requirements from start to finish, giving you the peace of mind knowing that your cargo will arrive at its destination on time and without complications.

This extensive range of services include:

- » Permanent space on worldwide airfreight carriers with daily scheduled departures
- » Airline pallet optimisation
- » Aircraft Chartering
- » Helifreight service
- » Customs clearance, consultancy and management
- » Production of export documentation
- » Global door-to-door service
- » Cargo X-ray facilities
- » Warehouse facilities
- » Track & Trace facilities
- » Packing & crating facilities, including Hazardous material packing with IATA documentation
