We are proud to announce that on the 1st of September 2021, Arjan Bos will join the Global Executive Board of the family owned LV Shipping & Transport Group, whose head office is located in Vlaardingen, the Netherlands.

Arjan Bos is currently CEO of TVM insurances. Later this year, when his successor is instated, he will step down as CEO. He will remain employed by TVM until August 31st, to train his successor.

With 33 offices worldwide, the LV Shipping & Transport Group is a leading player in the international logistics and transport market. The group has a turnover of approximately 200 million euros and employs over 500 people. This year the LV Shipping & Transport Group is celebrating its 100th anniversary. The group was founded in 1921 under the name of J. Lensveld & Zonen.

For the coming years, the group will focus on extending its end-to-end supply chain solutions and fully integrated logistics services. This allows us to actively respond to new opportunities and to support our clients in managing their supply chain in rapidly changing market conditions.

Mark van Herk, CEO of the LV Shipping & Transport Group:

“This year we celebrate LV providing global logistics services for a century. Our ambition is to keep developing our position as one of the leading players in the market and remain a solid family company for the next 100 years to come. Arjan joining the LV family underlines this ambition. With his specific knowledge, experience and strategic insight, we see in Arjan someone who can contribute to the realisation of our growth ambitions. For example by further strengthening our organisational structure and expanding our sales activities. In addition, Arjan is very capable of connecting people. Particularly in our company, with offices worldwide and many different cultures, it is of great added value.”

Arjan Bos:

“After 27 years of working at TVM, of which the last 20 years as CEO, I am ready for a new challenge. The dynamics of the logistics and transport sector have always appealed to me. I am delighted to be joining the global executive team of the LV Shipping & Transport Group. I am already familiar with the company and a number of people within the company because of the close ties between TVM and LV. Lensveld Transport was, among other things, involved in the founding of TVM. Until August 31, I am still employed by TVM insurance. Partly thanks to the great dedication and commitment of many employees, I leave behind an extremely healthy and future-proof TVM, of which I am proud.”
